

Meet industry experts and learn how to use JavaScript to build cutting edge mobile, desktop, server, and web applications.

THE FIRST CONFERENCE FOR
JAVASCRIPT DEVELOPERS

<http://www.jsconf2009.com>

16 of the greatest JavaScript thought leaders and visionaries present how use JavaScript to write the best web, desktop, mobile, and server code. Whether you are a designer or developer, this is the event of the year to take your craft to the next level.

Meet the brightest individuals and companies in the design and development field. JSConf 2009 is about building the JavaScript community and that begins with you. The top web and advertising agencies will be there to meet talented individuals like you.

We are fanatical about sharing ideas, projects, and experiences with other JavaScript designers, developers, and users. With the JSConf "Track B" you are able to share your great big idea or next generation project with the JavaScript community.
